

Med Club Enrollment Form

MED CLUB

(Logo Contest Winner here)

What is the advantage of joining MED CLUB?

- Students with common goals and a similar interest in health careers will be able to take science and health classes together whenever possible. This creates an opportunity to develop a camaraderie and team spirit among its members.
- Classes can relate the standard school curriculum to the medical field so there is more relevance to learning.
- Students have a greater opportunity to learn about the numerous different medical careers that exist.
- Students will become more aware of health related opportunities that are available in our community, such as organizations, job shadowing and clinical opportunities, etc.
- Students will build a more comprehensive background in science and health science that will allow them to take greater advantage of post secondary school and job opportunities.
- Med Club will explore diverse healthcare career opportunities, accommodating a broad range of interests, such as being a physician, nurse, laboratory technician, pharmacist, radiology technician, therapist, paramedic, certified coder, information technician, and biomedical engineering, etc.
- Clark, Knox, Schuyler, and Scotland County MED CLUB members will:
 1. Interact via monthly joint meetings by Tele-education connections, with guest speakers.
 2. Annually one school will host the other three schools for a symposium.
 3. A website will be created for club members to access.
 4. Field trips made available. There is no expense involved for the students. Meals will be provided.

*MED CLUB is designed to demonstrate to young people that setting goals early can lead to successful careers in the rural areas, they call home.

MED CLUB APPLICATION

Student Name: _____

Address: _____

Phone: _____ Grade: _____ School District: _____

Parents Names, Addresses, and Phone Numbers:
