Day 1 Reporting Quality & Care Management Services: This virtual course is designed for providers, quality managers, ACO leadership, and revenue cycle staff at community health facilities who need a high-level basic explanation of how to report accurate quality metrics and who deal with HEDIS, HCC, QIP, Risk Adjustment, and Share Savings.

After a brief overview of HEDIS/HCC and other Quality Improvement Programs, we will dive into relevant sections of the ICD-10-CM's "Official Guidelines for Coding & Reimbursement" and will review the instructional notes associated with key diagnoses in order to most accurately report the true complexity of care for your ACO patients and to:

Day 2 Evaluation & Management: This interactive 1-day training is intended for healthcare practitioners, medical billers, coders, auditors, office managers and IT professionals involved with authoring clinical documentation, generating E&M progress notes, auditing professional physician service claims and maintaining a healthy revenue cycle. The primary course focus will emphasis documentation guidelines set forth by CMS for reporting Evaluation and Management services (E&M), as defined by CPT. The curriculum will provide attendees with a strong grasp of Evaluation and Management auditing, coding and documentation techniques.
