# Show Me Interprofessional Education and Collaborative Practice: Moving the IPE Needle

Virtual conference | Friday, March 25, 2022 | 9:00 a.m.-4:00 p.m.

## Overview and objectives

The Missouri Area Health Education Centers (MAHEC) network and its partners offer a one-day virtual conference for healthcare professionals, academics, and students with an emphasis in interprofessional education (IPE) and collaborative practice. This conference will offer the latest in information, trends, and tools used to enhance the interest and knowledge centered on IPE and collaborative practice.

Topics to be addressed include challenges and solutions for implementation in a practice environment, utilization of teams to develop an age-friendly health system, innovations in teaching IPE in a practice environment, and a new model for improved care and outcomes.

A certificate of participation will be provided following the conclusion of the conference. The certificate will be sent to the email address used for registration. For questions regarding the certificates, contact Stephanie Taylor at [stephanie.taylor@hccnetwork.org](mailto:stephanie.taylor@hccnetwork.org) or 816.617.2353.

## Sponsors and contributors

Special thank you to the conference sponsors for their support in making this conference possible to be provided at no cost to attendees.

## Schedule, Friday, March 25, 2022

**9:00-9:15 a.m.** . . . . . Brenda Higgins, EdD, MSN, FNP-BC

Welcome

**9:15-10:15 a.m.** . . . . . Sarah Shrader, PharmD, FCCP

“Cultivating the Interprofessional Education and Practice Landscape to Achieve Enhanced Outcomes in Healthcare”

This presentation will define interprofessional practice and education landscape, describe key challenges, and develop strategies to enhance interprofessional education in your current workplace.

**10:15-10:30 a.m.** . . . . . Break

**10:30-11:30 a.m.** . . . . . Amanda Arnold, BSN, RN

“The “WHY” behind Health Care”

This presentation will discuss the benefits of utilizing all members of the team for improving patient healthcare (from Community Health Worker to provider), improving quality measures while reducing risks, and how integration of the care team along with the financial aspect of the organization can provide the best “bang for the buck” with organization outcomes.

**11:30 a.m.-noon** . . . . . Interactive IPE activity

**Noon-12:30 p.m.** . . . . . Lunch

**12:30-1:30 p.m.** . . . . . David Pole, PhD, MPH

“What’s the Big Deal with IPE? I know how to work on teams!”

This presentation will define interprofessional collaboration, a new model for improved care and outcomes, and the attributes of effective healthcare.

**1:30-2:30 p.m.** . . . . . Janice Lundy, MA, MHA, BSW

“Team-Based Approach to Developing an Age-Friendly Health System”

This presentation will highlight the successful implementation of a multiprofessional approach to providing age-friendly health to older adults in a rural health system.

**2:30-2:40 p.m.** . . . . . Break

**2:40-3:40 p.m.** . . . . . Ashley N. Crowl, PharmD, BCACP

“The Interprofessional Teaching Clinic: Where we came from and where we are going.”

This presentation will highlight the University of Kansas Interprofessional Teaching Clinic and discuss opportunities and challenges.

**3:40-4:00 p.m.** . . . . . Debbie Blessing

Q&A and evaluation

Upon completion of the conference, a certificate of participation will be sent to the email used for registration.

## Speakers

### Morning Keynote

#### **Sarah Shrader, PharmD, FCCP**

Sarah Shrader holds a doctor of pharmacy degree from the University of Kansas (KU). She completed two years of postgraduate residency training in family medicine at the Medical University of South Carolina. Currently, she is senior director of academic programs and professional development for the American Association of Colleges of Pharmacy and an adjunct professor at the KU School of Pharmacy. Shrader has conducted numerous professional development trainings and workshops on IPE locally, nationally, and internationally. She is a past chair of the board of directors and now an active member of the American Interprofessional Health Collaborative. She has published numerous peer-reviewed manuscripts around interprofessional practice and education. She is passionate about enhancing interprofessional team-based care across the learning continuum to ultimately achieve the Quadruple Aim in healthcare.

### Afternoon Keynote

#### **David Pole, PhD, MPH**

Dr. David Pole is an assistant professor in family and community medicine and directs the Center for Interprofessional Education & Research. He joined Saint Louis University (SLU) School of Medicine in 2005 to manage the AHEC program. He served as director of community medicine and oversaw the Service Distinction Program and the Family Medicine Clerkship. His experience in collaborative practice includes work in chronic disease management and nonprofit work with an Urban Indian Health Program. He joined the SLU IPE programs in 2006 and became director in 2013. Dr. Pole directs courses in Patient Safety and Quality Improvement at the medical school, an IP Team Seminars course for clinical students across eight professions, and administers IPE for baccalaureate programs. In the last two years, Dr. Pole has increased his focus on the clinical learning environment. Dr. Pole currently co-chairs the CQI Council and DEI Council for the School of Medicine.

## Speakers

### **Amanda Arnold, RN, BSN**

Amanda Arnold is a registered nurse who received her bachelor of science in nursing from Avila University. Arnold has worked with the Health Care Collaborative (HCC) Network since 2013 and has held many roles with the organization, including chronic disease manager, director of nursing, director of quality, and most recently chief clinical officer. She is an American Heart Association CPR instructor, certified asthma educator, and certified lifestyle coach. She currently oversees all the clinical operations for the organization as well as the Quality and Risk Management program and Population Health Management Program, and she is the project director on many federally funded grant projects. She serves as an advisory board member for the West Central Missouri Area Health Education Center. She was born and raised in Buckner, Missouri, and continues to raise a family there. She has a strong passion for rural healthcare.

### **Ashley N. Crowl, PharmD, BCACP**

Ashley Crowl received her doctor of pharmacy degree from the University of Missouri-Kansas City School of Pharmacy. She completed a two-year pharmaceutical care leadership residency at the University of Minnesota College of Pharmacy. Currently, she is a clinical associate professor at the University of Kansas (KU) School of Pharmacy and is board certified in ambulatory care. Her practice site is The Interprofessional Teaching Clinic housed within the Family Medicine Clinic at the University of Kansas Medical Center. She has the privilege of precepting a variety of health professional students and working with complex, underserved patients. She is also director of interprofessional education for KU School of Pharmacy and is involved with the planning and execution of three large interprofessional events.

### **Janice Lundy, MA, MHA, BSW**

Janice Lundy holds a bachelor's degree in social work and master's degrees in both gerontology and healthcare administration and currently serves as director of social work and geriatric case management at Perry County Memorial Hospital (PCMH) in Perryville, Missouri. She has implemented a comprehensive geriatric assessment program at PCMH utilizing the Rapid Geriatric Assessment (RGA) developed at Saint Louis University. She educates and trains interprofessional healthcare teams in the use of the RGA and cognitive stimulation therapy. She is a certified dementia practitioner by the U.S. National Council of Dementia Practitioners and a core trainer for the North American Cognitive Stimulation Therapy Training Center at Saint Louis University Geriatric Education Center. Her research interests include cognitive stimulation therapy, exercise and cognitive function, and age-friendly health systems.

### **Hannah Maxfield, MD, FAAFP**

Dr. Hannah Maxfield grew up in Olathe, Kansas, before completing her undergraduate degree at Drake University and her medical degree at Saint Louis University. She came to the University of Kansas for her family medicine residency and never left! She continues to practice full-spectrum family medicine, which includes inpatient care, outpatient care, and obstetrics. She is married and has two children who keep her busy, a 12-year-old boy and a 13-year-old girl. She enjoys traveling, reading, and learning new things.
